Brand New Book ***** Print on Demand *****.Excerpt from **Clark s Tangible Shorthand Self-Instructor: The Only System Free of Word Signs a Purely Phonetic System of 100 Characters and 12 Rules** A system of shorthand, to be universally adopted, should have an alphabet large to furnish a character for each of the elementary phonetic sounds, each of the frequently occurring combined consonant sounds, such as: pk, tk, fk, lk, ls, rk, dl, pr, tr, fr, vr, lr, kr, pi, bl, fl, vl, rl, sp, st, sk, etc.; and of such construction that the vowel characters can be easily combined into diphthongs and digraphs, and join smoothly with consonant strokes, so that the hand may glide easily from one outline to another 5 without deforming the characters or retarding the movement of the hand. In this the author feels that this system comes the nearest to these ideals of perfection. In this connection he wishes to acknowledge the receipt of several valuable suggestions from Rev. J. B. Worrall and other students of the system. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
