Book Condition: New. Publisher/Verlag: Springer, Berlin | This volume represents the proceedings of a two-day international meeting on chiral chromatography held at the University of Surrey between 3-4 September 1987. The meeting was jointly organized by the Chromatographic SOCIety and the Robens Institute of the University of Surrey in response to the burgeoning interest in this rapid maturing field of chromatography. Nowhere is this interest more evident than in the agrochemical and pharmaceutical industries where the implications of different pharmacological and toxicological activity for the individual enantiomers present in a racemic drug ol" insecticide is an increasing area of concern. Developments in the area of chiral separations are at last beginning to provide SCientists with the necessary tools to study how animals and man handle racemates and relate their obseVations to the obseVed biological effects of these substances. The development of robust and Simple methods for the separation of enantiomers will therefore have a profound Impact on safety evaluation and drug design. The meeting proved to be very successful. with over 160 delegates from thirteen countries in Europe and America present to learn from the experiences of experts in the field of chiral chromatography and to hear about the latest developments. Hopefully. in future symposia on chiral separations at the University of Surrey. | The Biological Importance of Chirality and Methods Available to Determine Enantiomers.- Drug Analysis Using High-Performance Liquid Chromatographic (HPLC) Chiral Stationary Phases: Where to Begin and Which to Use.- Systematic Studies of Chiral Recognition Mechanisms.- Separation of Enantiomers of Oxyphenonium Bromide by High-Performance Liquid Chromatography.- The Use of Pirkle High-Performance Liquid Chromatography Phases in the Resolution of Enantiomers of Polycyclic Aromatic Hydrocarbon Metabolites.- The Role of Solvents and Steric Factors in the Resolution of ?-Blocker Drugs on Chiral Urea Phases.- Complexation of Dansyl Amino Acid Enantiomers by...
