Not illustrated. 1877 Excerpt: .of our elementary text-books in physics, geometry, surveying, etc., could gain a little of the spirit of our best authors in chemistry, and rewrite their books in the light of the science of to-day. From John Haywood, Professor of Mathematics, Otterbein University. Having come into possession of a meter manufactured by the Stanley Rule and Level Company, an associate--Prof. McFadden--and myself concluded that we ought to bring the Metric System to the notice of our students, and give them some instruction in it. While studying over the project, I saw clearly that it would add very much to their interest if their business and traffic could be conducted in the new system. A grocer was easily persuaded to agree to sell coal-oil by the liter to students and others calling for it in this way, he being furnished with a liter for the purpose. The students...
