Not illustrated. 1877 Excerpt: .with 1875 there is an increase on the rate of admissions in the Presidency and in the Poona Divisions, a decrease in the Mhow. In Juries.--Accidental.--Each of the Divisions shows a moderate reduction in the rate of admissions on that of 1875. The admissions, deaths, invaliding, and the number of constantly sick, in the several Corps which served in the Command during the year, are shown in the following Table: --Bombay. Officers. The average annual strength of the Officers serving in the Command was 364, the attacks of sickness among them were 252, the deaths in India, were 5, the number invalided was 5-1; the proportions given by these numbers are for attacks of sickness 692, for deaths 13-71, and for invaliding 148-36 per 1,000 of the strength respectively. The deaths were caused, by enteric fever (2), remittent fever (1), hepatitis (2). Women. The average annual...
